EDITORIAL STATEMENT

Article Title: **Technical Entrepreneurship in Heavy-Duty Automotive Services for Public Sector Organizations: Challenges, Processes, and Competitiveness Strategies**

DOI: https://doi.org/10.37497/opsbrazil.40

Author(s): Paulo José Raulino Nascimento

Date: July 30, 2026

Open Science Brazil, through its Editorial Board, hereby declares that the manuscript entitled "**Technical Entrepreneurship in Heavy-Duty Automotive Services for Public Sector Organizations: Challenges, Processes, and Competitiveness Strategies**", authored by Paulo José Raulino Nascimento, has undergone the editorial process established by the platform, in accordance with its guidelines and standards for the assessment and dissemination of scholarly works.

The submitted ID 40 manuscript (preprint) was subject to an editorial review and curatorial assessment process, considering relevant aspects such as the academic significance of the topic addressed, its contribution to the respective field of knowledge, the consistency of the information presented, and its potential contribution to the advancement and dissemination of scientific knowledge.

The editorial curation process aims to identify and support scholarly works that present relevant scientific discussions, contribute to the expansion of academic knowledge, and provide meaningful information for researchers, professionals, and other members of the scientific community.

Following the editorial assessment, the manuscript was considered relevant from an academic perspective due to the importance of the subject addressed and its potential contribution to ongoing discussions and knowledge development within its area of study.

Open Science Brazil reaffirms its commitment to the principles of Open Science, promoting transparency, accessibility, and the responsible dissemination of scientific knowledge produced by researchers and authors dedicated to the advancement of academic and scientific development.

This statement is issued as a formal declaration of the editorial process conducted and the academic relevance of the submitted work.
